Springer-Verlag Gmbh Jun 2016, 2016. Buch. Condition: Neu. Neuware - This book focuses on the transformation from colonial to global - the formation, mechanism, events, works and people related to urban architecture. The book reveals hardships the city encountered in the 1950s and the glamour enjoyed in the 1980s. It depicts the public and private developments, and especially the public housing which has sheltered millions of residents. The author identifies the architects practising in the formative years and the representatives of a rising generation after the 1980s. Suffering from land shortage and a dense environment, the urban development of Hong Kong has in the past 70 years met the changing demands of fluctuating economic activities and a rising population. Architecture on the island has been shaped by social demands, the economy and technology. The buildings have been forged by the government, clients, planners, architects, many contractors and end-users. The built environment nurtures our life and is visual evidence of the way the city has developed. Hong Kong is a key to East Asia in the Pacific Era. The book is a must-read for a thorough understanding the contemporary history and architecture of this oriental pearl. Endorsement: 'Hong Kong sets an extreme example of hyper-density living. MTR's Kowloon Station project offered my firm the unique opportunity to contribute to a new type of fully integrated three dimensional transport mega-structure, conceived as a well-connected place for people to live, work and play. Through Charlie Xue's book, one can see how a compact city works and high density integrated development indicates a sustainable path for modern city making.' Sir Terry Farrell , CBE, Principal, Farrells 'Well researched and refreshingly well structured, Charlie Xue's latest book comprehensively shows how Hong Kong's post-war urban architecture both tracks and symbolizes the former British colony's rise to...
