There is an infinite amount of material out there on how to succeed, how to make money, how to trade stocks, how to grow your business, how to enhance your career, etc. Nowadays, we have no shortage of people teaching others how to be successful. The majority of people who read and take courses on how to material never actually succeed with it. That is a sad fact, because many people could have the beautiful and successful lives they want, but they are missing some key components that would get them results. Success opportunities may be presenting themselves to you every day, but the problem is they are in a language in which you may not be fluent. The point of this book is to teach you how to become fluent in the language of success and opportunity, so you can step out and receive this new world you can now perceive with full clarity and understanding. This book covers creating real success from scratch. It does not matter if you are at knowledge scratch, financial scratch, or entry level job scratch. It does not matter if you filed bankruptcy yesterday. In fact, being at scratch is perfectly okay because it has nothing to do with becoming successful.
