The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

Hunter House. Hardcover. Condition: New. 240 pages. Dimensions: 8.5in. x 5.5in. x 0.7in. Robert S. Gold, RPh, MBA, a clinical hospital pharmacist and affiliate instructor of clinical pharmacy at Purdue University with over 27 years of experience, shows the reader how to think like a clinical hospital pharmacist. He lists his 16 Rules of Safe Medication Use that, if followed, can help prevent the common problems that medications can cause; gives specific examples and scenarios featuring the thirty-six drugs that are the most common offenders; and explains how even seemingly good drugs can harm a patient's kidney, liver, brain and heart if the patient's medical history and physical vulnerabilities are not taken into account. Are Your Meds Making You Sick A Pharmacists Guide to Avoiding Dangerous Drug Interactions, Reactions and Side-Effects is highly accessible and formatted for quick reference by any layperson. As the U. S. population ages and there is a steady increase in the number of prescribed and OTC medications and alternative remedies, this book will only become more important. When pharmacist Robert Gold's father began suffering side effects from medication, his expertise in the field was a quick resource. As a pharmacist for over 27 years, however, he realized most people don't have the experience and knowledge to identify adverse drug reactions or common drug-induced illness. Are Your...
