Brand New Book ***** Print on Demand *****.A landlocked Himalayan kingdom between India and China, Nepal ranks among the world's poorest countries. In 1990, following a democratization movement, the country became a parliamentary democracy under a constitutional monarch. Although this led to a process of economic restructuring and market liberalization, more than a decade of political instability and nearly seven years of increasingly dire internal security challenges have seriously hampered Nepal's economic growth and reform efforts. After several years of relatively robust growth, the economy is reported to have contracted in the fiscal year ending July 2002. Compounding the country's difficulties was the June 2001 tragedy in which 10 members of the royal family, including King Birendra, were killed in an assassination-suicide, reportedly carried out by Crown Prince Dipendra. At present, the Kathmandu government faces increasing pressure to end a 7-year-old Maoist insurgency that has caused widespread violence and crippled the Nepali economy. Nearly 8,000 people reportedly have been killed in the insurgency, with some two-thirds of the deaths occurring since the Maoists broke a cease-fire agreement in November 2001. In May 2002, then-Prime Minister Deuba met with President Bush to discuss U.S. financial help in suppressing the insurgency. Actual U.S. security assistance to Nepal was \$14.
