## ETIOPATHOGENESIS OF ORAL SUBMUCOUS FIBROSIS

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Oral Pathology and Microbiology | The oral cavity is the site of many diseases. An adequate diagnosis is essential as these lesions may vary in nature from simple to life threatening ones. The oral mucous membrane is a unique tissue which is continuously exposed to various kinds of stress such as heat, cold, microorganisms, chemicals & mechanical irritations, in the process of food intake. In response to these stress, both epithelial and...
