His ever-inventive stories are cut from the cloth of it and sewn with the skill of a master. --Gregory Frost Tom Purdom made his first professional sale all the way back in 1957. It s hard to think of any other member of his generation whose current work is frequently mentioned in the same breath with that of writers such as Charles Stross, Greg Egan, and Alastair Reynolds, many of whom were not even born when Tom started his professional career, but Tom s is. In fact, for sweep and audacity of imagination and a wealth of new ideas and dazzling conceptualization, Tom Purdom not only holds his own with the New Young Turks of the 90s and the Oughts, he sometimes surpasses them. And unlike some of today s Hot New Writers, Tom s work never fails to ALSO feature fascinating and psychologically complex characters, and intrepid investigation into the human heart. --Gardner Dozois Tom Purdom is the most underrated science fiction writer I know of His short fiction delivers again and again with great plots, characters, and an imagination both cosmic and delicately complex. --Jeffrey Ford Purdom has created a major body of work. Thoughtful, humane, intelligent, extrapolative, involving, his stories are exactly the sort of thing our genre exists to make possible. If you don t like Tom Purdom, you don t like science fiction. Period. --Michael Swanwick.
