Createspace Independent Publishing Platform, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Few people in modern society have not heard of cryptocurrencies. There are a lot of rumors and myths about them, many discuss certain ideas, equipment is being created, official messages from the Government and officials are heard. Against the backdrop of increased excitement and rising prices for some digital money, questions arise about what is cryptocurrency, why you need it and how you can get it. Virtual, encrypted, digital, e-currency or cryptocurrency Ripple (XRP) we will be talking about in this book captures the currency space in the Internet more and more. The modern level of money transfers from country to country, and between banks and organizations, is characterized by low speed, endless verifications and can last several days. The Ripple system is working to accelerate all financial transactions and can already make money transfers within a few seconds. According to many experts of the virtual currency world, it has built a higher class of protection and security, ahead of popular cryptocurrencies like Bitcoin and Ethereum. Ripple protocol is being used by 50 large companies and banks. It s impossible to forge it because it has crypto protection. The purpose of creating a cryptocurrency is the formation of virtual money for the free implementation of transactions around the world. Investors earn on a constant increase in the price of XRP, making a long-term investment in Ripple XRP profitable. Now it is in the top 3 most promising cryptocurrencies and, according to Wall Street Forecast, Ripple s perspectives for 2020 in figures are \$1,000 per coin! As the forecast of the Ripple currency is positive, it s easy to make money on it.In this book we will cover the following topics: -What is...
