

Bioenergy Development: Issues and Impacts for Poverty and Natural Resource Management (Paperback)

By Elizabeth Cushion, Adrian Whiteman, Gerhard Dieterle

World Bank Publications, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Bioenergy has been critical to humanity since the cave dwellers first used wood to cook their food and stay warm at night. Ancient forms of bioenergy firewood and cow dung patties remain primary fuel sources for rural and poor people. New sources of bioenergy including black liquor , biodiesel, cellulosic ethanol and many more, have great promise and generate great controversy. This book gives an overview of bioenergy developments and examines the main issues and possible socioeconomic implications of these developments and their potential impacts on land use and the environment, especially with respect to forests. The paper presents an introduction to bioenergy, provides a background and overview of solid biomass and liquid biofuels, and examines opportunities and challenges at the regional and country level. It also examines potential impacts for specific types of bioenergy. The book does not pretend to be definitive, especially with respect to the controversial interplay of subjects like the impact of bioenergy on food prices, but it does try to suggest the tradeoffs that need to be examined in considering bioenergy policies, and it has...
