Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Elemental Earth (The Mysteries: Book 1) YA Fantasy Fiction You turned the god of gnomes into a garden ornament? Sarah looked closely, but couldn't tell if her dad was annoyed or amused-perhaps he was both . Whilst 15 year old Sarah may be struggling to regain her feet, after being ripped from her everyday mundane life and ending up in a whole new dimension, she still knows how to have a bit of fun along the way. The Earth Elemental isn't the only one whose feathers she manages to ruffle, and it's only been four days. Meanwhile, her best friend is missing, and big trouble is brewing. She soon has a lot more to worry about than what happened to her phone or iPod, or even how much of an idiot Caleb obviously thinks she is. Elemental Earth is the first book in The Mysteries series, and is aimed at Young Adults. Even if you've already reached an age where the young ones might call you old enough , if you're still young at heart then you're bound to enjoy these books just as much as the next-err-younger adult. Age aside, perhaps we should be more worried about what further havoc Sarah's antics might be about to wreak on the universe as we know it? We'd probably all be sleeping a lot more soundly if she'd only stuck to applied maths and the odd pillow fight. But no, sadly the lure of the proverbial rabbit hole proved just a tad too much. And now she's taken the plunge, there's no turning back. You'll have to wait...
