## Medicinal Plants Standardization

By Mushtaq Ahmad

VDM Verlag. Paperback. Condition: New. 128 pages. Dimensions: 8.7in. x 5.9in. x 0.3in. In recent years there is a spurt in the interest regarding survival of traditional herbal drug medication. At the same time in the global perspective, the authenticity, purity and standardization are important aspects with respect to herbal drugs. As the name implies authenticity relates to providing the materials is true and corresponds to right identity. This book describes the chemotaxonomic markers including organoleptography (color, taste, odor, appearance, texture, clarity), morpho-palynology macro and microscopic features based on light microscope (LM) and scanning electron microscopy (SEM), leaf epidermal anatomy (LM), chromatographic analysis (TLC) and fluorescence quenching (UV and IR analysis) used as an aid in the identification of genuine source of herbal drugs. Because of gravity of problems like adulteration, nomenclatural confusion, morphological similarities and lack of knowledge about genuine source, these chemotaxonomic techniques are of utmost importance for wider acceptance according to World Health Organization (WHO). This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

### Reviews

*I actually started off reading this ebook. It can be full of knowledge and wisdom I discovered this pdf from my i and dad suggested this pdf to understand.*

-- **Marilyne Haag**

*The most effective ebook i possibly go through. I am quite late in start reading this one, but better then never. Its been designed in an extremely basic way and it is just after i finished reading this ebook by which basically transformed me, modify the way i believe.*
