

Continuing Education (Correspondence) Upgraded public course textbook series: Complex Function and Integral Transformation(Chinese Edition)

By XU DA SHEN

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub Date: 2005 01 of Pages: 200
Language: Chinese in Publisher: China Electric Power Press continuing education
(correspondence) Upgraded public course textbook series: Complex Function and Integral
Transform is audited in accordance with the former State Board of Education and the Ministry of
Education the courses are basic requirements. according to the teaching of continuing
education (correspondence) need to write. The book includes complex function and integral
transform two parts. Part of a complex function including: plural and complex function. analytic
functions. complex integration. complex series. residues. conformal mapping. etc. the integral
transform some of the major introduces the Fourier transform and the Laplace transform. Book
with exercises and exercise answers in the back of each section. each chapter summary at the
end of each chapter. total exercises. Exercise answers and self-test exercises to help the reader
grasp the main points. Book with a summary table of Fourier transform and the Laplace
transform simple table. check with for learning. Continuing Education (Correspondence)
Upgraded Public Course textbook series: Complex Function and Integral Transformation
available for higher technical institutions for...
