Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. The U.S. Army and World War II is an anthology of selected papers from three international conferences held in 1990, 1992, and 1994 on the Army's role in the war. Taking the best from those meetings, Judith L. Bellafaire has organized the various presentations into four thematic categories-prewar planning, the home front, the European theater, and the Asian-Pacific theaters-reflecting the diversity of both the war and the interest of those seeking to understand its many facets. In these carefully edited papers, one will find the more conventional treatments of doctrine, strategy, and operations side by side with those focusing on military mobilization and procurement, race and gender, psychological warfare, and large-scale advice and assistance programs. Those grappling with the challenges of stability operations and other contingency missions in support of the Global War on Terrorism will find this collection of readings invaluable.
