No more than moderate seasonal declines are likely, and margins between prices of feeders and fed cattle are expected to be relatively narrow. As prices of feed will be lower, profits in feeding this coming season may be close to average. Prices of hogs dropped sharply from their June high. Prices through out the fall will be considerably below last fall. They may reach their seasonal low late in the year. Prices of lambs declined in late June and July, and in early August were about the same as a year before. Some further seasonal drop may occur.
