THE HUMAN BODY IN HEALTH DISEASE - HARDCOVER (HARDBACK)

[DOWNLOAD](#)

Elsevier - Health Sciences Division, United States, 2017. Hardback. Condition: New. 7th Revised edition. Language: English . Brand New Book. Offering a student-friendly writing style, this text presents a body systems approach with a strong emphasis on vocabulary and basic anatomy and physiology concepts, as well as the basic mechanisms of disease and pathologic conditions associated with each body system. This comprehensive text is dominated by two unifying themes: the complementarity of structure and function and homeostasis. The integrating principle of homeostasis is used to show how normal structure and function is achieved and maintained. Failures of homeostasis are shown as basic mechanisms of disease. The reader is drawn into the subject by superior illustrations, including cadaver dissections, and other student-friendly features. Boxed Essays throughout each chapter contain information ranging from clinical applications to sidelights on recent research or topics related to exercise and fitness. Clinical Applications at the end of each chapter offer short case studies with questions that tie theory to practice, and encourage students to apply their knowledge to specific, practical problems. Answers are in the back of the book. Readability and coverage are at the appropriate level for students approaching the study of anatomy and physiology for the first time, with interesting analogies and examples along with the factual information. Superior art program, with over 450 full-color illustrations, complements text material. Chapter Outlines introduce each chapter and preview the content. Objectives contain measurable objectives for students to identify key goals and master information. Detailed Outline Summaries at the end of each chapter provide an excellent recap of important chapter content. New and important vocabulary terms are listed at the end of each chapter, and a comprehensive Glossary provides the full definition for each term. All vocabulary terms in each chapter are provided in bold print. Student self-evaluation activities at the end of each chapter...
