Reviews

This pdf is wonderful. We have gone through it and so I am certain that I am going to go back to study it yet again once more in the future. It has been developed in an exceedingly straightforward way which is merely after I finished reading through this pdf where it really transformed me, modified the way I think.

Peach Pit Dez 2014, 2014. Taschenbuch. Book Condition: Neu. 231x189x17 mm. Neuware - The Nikon D750 is the latest of Nikon's full-frame DSLRs, featuring a high-quality build and feature set that outdo other DSLRs of its size. It's fast; versatile, shooting stills in multiple formats, as well as enhanced-definition video with sharpness and rich tonality; and offers a wide range of compositional possibilities. While the camera manual explains what the camera can do, it doesn't show exactly how to use the camera to create great images. That's where Nikon D750: From Snapshots to Great Shots comes in! Starting with the top ten things users need to know about the camera, author Rob Sylvan carefully guides readers through the operating features. Readers get practical advice from a pro on which settings to use when, great shooting tips, and end of chapter assignments. For this edition, there will be particular attention given to the camera's advanced features, such as: capturing high-quality audio/video, the ability to change aperture while in Live View, using the Nikon Creative Lighting System to trigger external flashes, and more. From Snapshots to Great Shots is a beautiful how-to photography series that provides the perfect blend of instruction, inspiration, and reference for specific camera models and photography concepts. Featuring a clear, elegant design; outstanding images that educate and inspire; and a friendly, accessible voice, this series helps photographers get great shots every time they pick up their camera. Englisch.
