Effective June 29, 1918, new maximum prices for these districts were established by the Fuel Administration. The new prices which applied to the entire output of the two districts, regardless of the thickness of the seams from which derived, were (inclusive of the 45-cent price increase because of the November, 1917, wage increase) as follows: run of mine, \$2.70; prepared sizes, \$2.95; slack \$2.45. Applying to these prices the proportions (already stated), which these three classes of coal form of the total output, a sales realization of \$2.79 per ton was possible, had the entire output been sold at such maximum prices. The sales realizations actually received by the five operators during the period July-August, 1918, was \$2.69 per ton, an increase of 25 cents over that of June, 1918. This increase is attributable to the change in official maximum...
