

Department of Higher Education to recommend outstanding foreign information and technology series of teaching books: Database and Transaction Processing (application-oriented approach) (photocopy)

Filesize: 5.56 MB

Reviews

The most effective publication i at any time go through. This is certainly for all those who statte that there had not been a worthy of looking at. Its been printed in an extremely straightforward way which is merely soon after i finished reading this publication where basically changed me, change the way in my opinion.

Paperback Pages Number: 1014 Language: English entering the 21st century, especially as China's accession to the WTO, the international information industry will become more competitive. China's information industry in the late 20th century, rapid development, compared with developed countries, even compared with countries such as India, Ireland, there is a big gap. The international competitiveness of national information technology development speed and the information industry, and ultimately will depend on the quality and quantity of information science and technology talent. Excellent textbook for the introduction of foreign science and technology, taught in English or bilingual teaching in qualified schools to promote the carrying out, is an important measure taken by the Ministry of Education to expedite the training of a large number of high-quality IT talent. To this end, the Ministry of Education, first carry out the introduction of information science and technology textbook pilot project by the Higher Education Press. The proposed two requirements, it is necessary to a high level to low prices. Higher Education Press and Information Science and Technology's efforts to introduce teaching materials expert group, after a comparatively short time, the introduction of the first batch of more than 20 kinds of materials have been published in succession. These textbooks were published by the widely praised, many of which are the world's information science and technology well-known experts and professors of classics and the outstanding works to reflect the latest developments of information science and technology represents a world-class science and technology education level, and the price is the most favorable, and the domestic like their own teaching materials fairly. This textbook introduction is in the Department of Higher Education and Higher Education Press....
