For a moment, like a conjuring trick, they attract all the sympathies of the audience: like the sailor Vakulinchuk, like the young woman and child on the Odessa Steps, but they emerge only to dissolve once more into the mass. This signifies: no film stars but a film of real-life types. -Adrian Piotrovsky, writing for the Leningrad newspaper Krasnaia gazeta Russia entered the 20th century in possession of nearly all of the prerequisites for an empire of historic proportions. The tsar presided over almost one-sixth of the world s land masses extending from a culturally European West to an Asian East, with vast expanses of forest steppe and tundra reaching from Poland to the Pacific Ocean. Land-based military forces reflected the potency of a globally dominant nation, and the disparate borders offered several strategic advantages for the navy, including Sevastopol in Crimea, and Odessa on the Black Sea. Virtually all great empires have built and maintained advanced navies, from ancient times to the modern era of Spain, but Russia lagged behind in the modern armadas typical of world-shaping societies. This was due, in part, to the enormity of her four major coastlines. To the north stretched a broad icy expanse, thousands of miles in breadth. To the east lay a second vast coastline from the Bering Strait to the south, where it met territory controlled by leading Asian powers. The country possessed sizable inland coasts in the Black Sea requiring a fleet of its...
