

## Ford Fusion (Americas)

By Frederic P. Miller

Alphascript Publishing. Taschenbuch. Condition: Neu. Neuware - The Ford Fusion is a mid-size car produced by the Ford Motor Company since the 2006 model year. The Fusion is manufactured at Ford's Hermosillo Stamping & Assembly plant in Hermosillo, Sonora, Mexico, where the similar Mercury Milan and Lincoln MKZ are also built. All three cars are based on the CD3 platform shared with Mazda's Mazda6 (M/Y 2003-2008) and were launched simultaneously into the market (the MKZ as the Zephyr). Production on the first Fusions began on August 1, 2005. The Fusion replaced the Mondeo for the Latin American markets except in Argentina (where the current European Mondeo is available) and in the United States and Canada (where it superseded the mid-size Taurus, which was being phased out). By United States Environmental Protection Agency size category, the Fusion is positioned between the compact Ford Focus and full-size Ford Taurus. 140 pp. Englisch.

### Reviews

*This book is really gripping and interesting. Of course, it is actually perform, still an interesting and amazing literature. You will not truly feel monotony at whenever you want of your time (that's what catalogues are for concerning when you request me).*

-- **Claud Schaden**

*A very great pdf with lucid and perfect explanations. It really is rally interesting through reading time period. You wont really feel monotony at at any moment of your own time (that's what catalogs are for about in the event you question me).*
