

## Ultracytochemical principles and technology (National Higher agricultural and forestry colleges graduate teaching)

Filesize: 7.39 MB

### **Reviews**

*This is the very best pdf i actually have study right up until now. I could possibly comprehend almost everything using this created e book. Your daily life span will be enhance as soon as you total looking over this publication.*  
**(Prof. Johnson Rutherford)**

## ULTRACYTOCHEMICAL PRINCIPLES AND TECHNOLOGY (NATIONAL HIGHER AGRICULTURAL AND FORESTRY COLLEGES GRADUATE TEACHING)

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number : 235 Publisher: Science Pub. Date :2011-03-01 version 1 2011-03-01 1st printing. Zhouzhu Qing edited Ultracytochemical principles and technology is divided into two. Articles on the system introduced Ultracytochemical common instruments and sample preparation techniques. including transmission electron microscopy and scanning electron microscopy structure of fishing theory and sample preparation. the emerging electron microscopy. scanning tunneling microscope capture. atomic force microscopy. confocal laser structural principle of the microscope and in the life science applications. Next focus on biological macromolecules (proteins. nucleic acids. complex sugars. lipids) and ion (cation. anion. etc.) Location of the conventional cell technology. ultra-immune electron microscopy cytochemistry. electron microscope autoradiography and micro cells chemical applications in molecular biology and so on. In addition. the principle of microscopic cells and chemical technology is introduced. Characteristics of this book lies in the combination of theoretical teaching and research practice. there are operational; introduced the latest technology and methods. forward-looking; direct service to graduate teaching and research. there is applicability. Book with a lot of charts and photographs. illustrated the book. to deepen the reader s perceptions. Appendix summarizes the main formula of some commonly used reagents in order to facilitate inspection. Contents: Foreword on articles Ultracytochemical common instruments and sample preparation techniques Chapter 1 Introduction Section I cells and the development of a chemical definition. the definition of two cell chemistry. cytochemistry II Ultracytochemical the development of the research content First. the definition of biological ultrastructure Second. the definition of Ultracytochemical three Ultracytochemical research content Section Ultracytochemical in the application of a life science. biological science and two. three forestry science. medical science Chapter structural principle of transmission electron microscopy sample preparation technique and transmission electron microscopy...
