PearlStone Publishing, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Dreams, most people have them but few understand them and what they are for. Over the course of 30 years I have received many revelations through visions and dreams. Most of which I found to be meaningless, worthless, confusing, misleading and distrustful. But there were some that made me wonder a great deal. I have grown into a lucid dreamer which makes them even more curiously intriguing and captivating to say the least. This caused me to question what I had thought over the years concerning dreams in the night. After looking deeper into what is known as mere images in the mind at night while I slept, I have come to believe that these experiences were actually other reality s. After dreaming of future events and watching them come to pass, I was persuaded that what I was seeing in my sleep was real. I have come to believe through dreams the invisible is seen, mysteries are known, the spiritual world is discovered, the past and future are visited, and knowledge is increased that couldn t otherwise be attained through the physical. I believe sounds are heard that couldn t otherwise be heard, worlds, planets, other dimensions and the one that resides on them are seen in close view. I ve found these experiences to be adventurous, dramatic, exciting, exploring, daring, informative, profoundly captivating, and fascinating. So if you are a dreamer, go ahead and explore your gift in light of GOD S WORD - because GOD S WORD is the only safeguard against any misleading that can come to you in the night.
