RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 46 pages. Original publisher: Tallahassee, Fla. : Southeastern Regional Vision for Education, 1997- OCLC Number: (OCoLC)53370583 Subject: Early childhood education -- United States -- Periodicals. Excerpt: . . . Technology in Learning Director: Dr. Elizabeth Byrom SERVEs Program on Technology in Learning focuses on improving the pro-cesses of teaching and learning through the use of emerging electronic tech-nologies, including computers, the Internet, telecommunications, and software applications. The Technology in Learning staff conducts research and develop-ment in strategies, methods, and materials and provides technical assistance and staff development to educators, parents, and others in schools, districts, and state education agencies. (See www.serve.org/technology for more information.) Technology Support Director: Gregory Lee Pow SERVE continues to enhance its technology infrastructure this year with the installation of the new TCIP-based videoconferencing server and software and new collaboration software for staff work and discussions. The video-conferencing enhancement provides greater communication capabilities among offices and external partners. The system is used to conduct monthly program and staff meetings. SERVE has also increased the use of video-conferencing to conduct meetings with programs throughout the Southeast. We have upgraded our collaboration software to support the communication of our staff members, clients, and partners located in each of the six states. This system is available on SERVEs Intranet and Internet. This software is the primary discussion tool used by the states policy analysts in the region. In addition, SERVE continues to maintain its local and wide area networks (LANs and WANs) that support e-mail, collaborative software applications, videoconferencing, and Internet and Intranet services. 13 This item ships from La Vergne, TN. Paperback.
