Packt Publishing Limited. Paperback. Condition: New. 342 pages. Dimensions: 9.2in. x 7.6in. x 0.9in. Create high-quality, professional, standard reports using today's most popular open source reporting tool. Overview. Install and configure PRD in Linux and Windows. Create complex reports using relational data sources. Produce reports with groups, aggregate functions, parameters, graphics, and sparklines. Install and configure Pentaho BI Server to execute PRD reports. Create and publish your own Java web application with parameterized reports and an interactive user interface. In Detail. Open source reporting tools and techniques, such as PRD, have been comparable in quality to their commercial counterparts. This is largely due to the market's tendency to choose open source solutions. PRD is a very powerful tool and in order to take full advantage of it you need to pay attention to the important details. Pentaho 5.0 Reporting by Example: Beginners Guide clearly explains the foundation and then puts those concepts into practice through step-by-step visual guides. Feeling confident with your newly discovered, desirable, skill you will have the power to create your very own professional reports including graphics, formulas, sub-reports and many other forms of data reporting. Pentaho 5.0 Reporting By Example: Beginners Guide is a step-by-step guide to create high quality, professional reports. Starting with the basics we will explore each feature to ensure a thorough understanding to peel back the curtain and take full advantage of the power that Pentaho puts at our fingertips. This book gives you the necessary resources to create a great variety of reports. You will be able to make reports that contain sub-reports, include graphics, sparklines and so on. You will also be able to parameterize your reports so that the final user can decide what information to visualize. You will be able to create your own stoplight...
