Forgotten Books. Paperback. Condition: New. 156 pages. Dimensions: 8.7in. x 6.0in. x 0.6in. In this volume a memoir is reproduced on The Origin of Life Question that was submitted early in October, 1010, to the Royal Society, and which, as I was informed after an interval of a few weeks, was not considered suitable for acceptance by the Society. I desire, therefore, to make a few observations in the first place in reference to the subject of the paper; and, secondly, in regard to the action of the Society, and the probable causes that have led to such action. Concerning the main question—that of the Origin of Life on this Earth—men of science, or at least a majority of them, no longer appeal to the intervention of any non-natural or miraculous cause. As believers in the Doctrine of Evolution
